<sup>1</sup>Underlying loss after tax is a non-IFRS measure that is presented to provide an understanding of the underlying performance of the Group's operations. In the opinion of the Directors, the Group's underlying loss reflects the results generated from ongoing operating activities which excludes non-operating adjustments that are considered to be non-cash or non-recurring in nature. These items are included in the Group's consolidated statutory result but excluded from the underlying result. The non-IFRS financial information is unaudited. However, the numbers have been extracted from the financial statements which have been subject to audit by the Company's auditor.
